Projects

Lakshya SSB | *SSB Preparation SaaS* | [Live Demo](#) | [GitHub](#)

November 2025 – April 2026

- Built a full-stack **Next.js 16** platform with **React 19**, **Prisma**, and **PostgreSQL**, integrating **Google Generative AI** for real-time psychological evaluations.
- Implemented custom **JWT/OTP authentication** and **Razorpay monetization**, utilizing secure webhooks and atomic transactions for real-time feature gating.
- Converted the platform into a production-ready **Android app via Capacitor**, optimizing cross-platform performance using **Server Components (SSR)** and database indexing.

sadakSathi | *Civic Intelligence Platform* | [Live Demo](#) | [GitHub](#)

August 2025 – April 2026

- Architected an AI-powered civic intelligence platform using **Next.js**, **TypeScript**, and **FastAPI**, deploying custom **YOLO models** to detect **11+ classes** of road hazards and traffic violations.
- Engineered a deterministic **duplication detection engine** integrating **ResNet50 image embeddings**, **SBERT**, and geospatial data, achieving a **100% validated pass rate** with $\sim 12.7\text{ms}$ inference time to filter redundant reports.
- Integrated the **Florence-2 Vision-Language Model** for high-accuracy **Number Plate OCR**, and designed a scalable backend with **PostgreSQL**, **Prisma ORM**, and **JWT Authentication** to manage real-time citizen reports.

DashDrive | *Ride-Hailing Platform* | [Live Demo](#) | [GitHub](#)

March 2026 – April 2026

- Architected a **full-stack ride-hailing SaaS platform** using **Next.js 16**, **TypeScript**, and **Rust (Axum)**, delivering **5 REST API modules across 12+ routes** with sub-100ms response times.
- Engineered **JWT-secured authentication** with **bcrypt encryption**, protecting **100% of user routes** and implementing a proprietary **4-digit OTP-based payment verification** system to prevent unauthorized transactions.
- Built a **real-time WebSocket ride-tracking** system and a **gamification engine** with streak calendars and **5+ achievement badges**, increasing user engagement and session retention.
